Fully automatic conveyerized powder coating line, semi-auto or manual painting plant, we have successfully set up various finishing systems all over the world, at a reasonable cost and within the project schedule We warmly welcome customs from all over the world to contact us for business cooperation.

Advanced Manufacturing Equipment

COLO-opti-F

If continuous use of the same powder over a long period of time is the bulk of your production schedule, then we would recommend the colo-opti with the 50-litre fluidized powder container.

COLO-opti-V

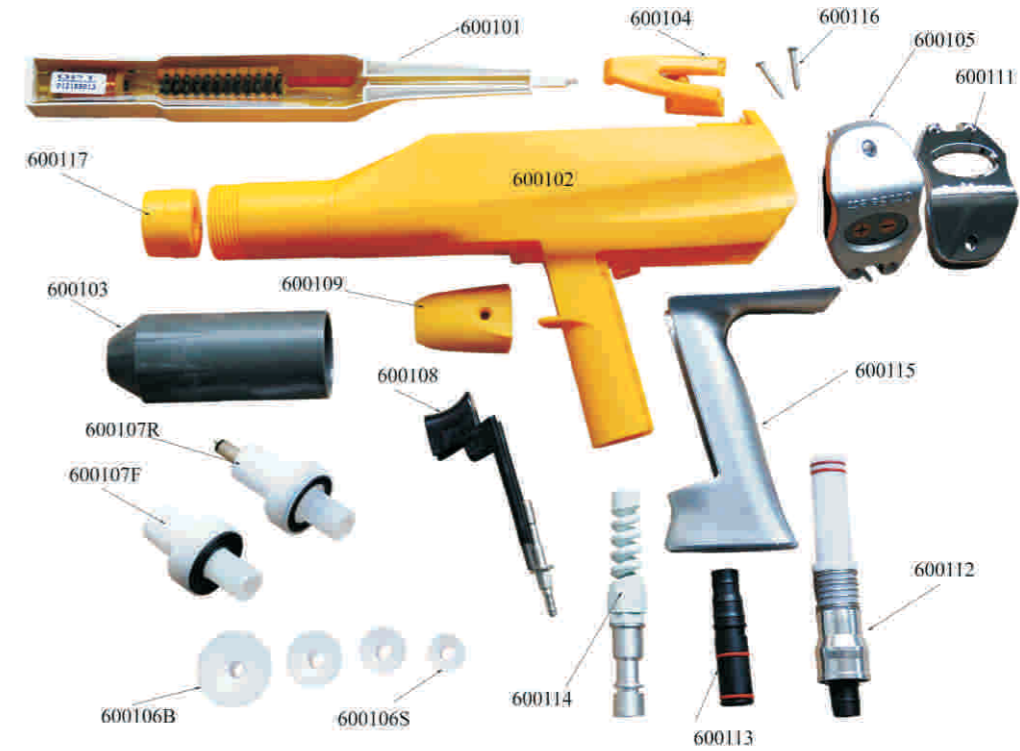

If your production requires frequent and quick color changes, then we would recommend the COLO-OPTI-V, which is designed to use the powder manufacturer's original carton.

**DUAL UNIT POWDER
COATING EQUIPMENT
COLO-opti-V-2**

Good for coat flat parts, complicated parts, recoat parts
Digital Valve Control guarantees a highly precise powder output and reproducible coating results.
